SUMMARY

Information Systems student with a GPA of 3.90 and hands-on experience in system analysis, web development, digital services, product-related projects, and cloud computing. Holds a professional competency certification in System Analysis from BNSP with a competent result. Experienced in understanding user requirements, analyzing system workflows, supporting digital services, documenting processes, troubleshooting technical issues, and creating digital designs based on user needs. Interested in System Analyst, Quality Assurance, IT Support, and system or design-related roles.

EXPERIENCE

Digital Service Support & Design Specialist - Freelance

May 2023 - Present

- Managed digital service operations, including account setup, activation, access configuration, service delivery, and documentation.
- Provided technical support, troubleshooting, and user assistance for digital service-related issues.
- Identified user requirements and created customized digital solutions and materials using digital design tools.

Project Coordinator - Freelance KOL Projects

May 2026 - Jun 2026

- Coordinated approximately 50 projects from initial requirements through final delivery.
- Collected and clarified project requirements before execution.
- Managed revisions, project status, follow-ups, and deadlines across multiple concurrent projects.
- Ensured final outputs aligned with the requirements provided at the beginning of each project.

Business IT Intern - Avalon Star

Feb 2026 - Apr 2026

- Studied and analyzed application features, system workflows, and functionality to understand how the system supports user needs.
- Assisted users in understanding application features and navigating system processes.
- Identified user issues and requirements and supported the resolution of application-related problems.

Web Application Development Project - DBS Foundation x Dicoding

Feb 2025 - Jul 2025

- Collaborated in a team throughout the development lifecycle, from requirement analysis and system design to implementation, testing, deployment, and documentation.
- Contributed to web application development using HTML, CSS, and JavaScript, including SPA and PWA implementation.
- Integrated RESTful APIs, including API connectivity with a Python-based model, to support application functionality and data processing.
- Performed functional testing and API testing using Postman, identified application issues, and documented system processes and project outcomes.

Cloud Computing Program Participant - Alibaba Cloud x DTS

Jun 2024 - Dec 2024

- Studied cloud computing fundamentals and network administration using Alibaba Cloud.
- Built cloud-based applications and applied basic deployment and scaling techniques.
- Completed a capstone project integrating cloud-hosted backend services with frontend interfaces.

Product Management Program Participant - GDSC

Oct 2023 - Jan 2024

- Learned fundamental Product Management concepts through project-based activities.
- Participated in defining product goals, organizing backlogs, and coordinating requirements with technical teams.
- Supported product development activities and technology workshops.
- Received the Best Student Award for contributions to the Product Management program.

CERTIFICATIONS & PROFESSIONAL TRAINING

System Analyst Competency Assessment - BNSP

Result: Competent | Certificate Pending Issuance

Jun 2026

Analyze Software Requirements - Universitas Gunadarma

Professional Training

Sep 2025

Front-End & Back-End Developer Certification - Dicoding Indonesia

Graduated with Distinction

Jul 2025

ACA Cloud Computing Certification - Alibaba Cloud

Score: 94.5/100 (Excellent) | ACA Cloud Computing Certification: Passed

Dec 2024

Other Certifications: Intermediate Web Development (Dicoding), Fundamental Front-End Web Development (Dicoding), Back-End JavaScript (Dicoding), Go-Lang Intermediate (Gunadarma), Git & GitHub (Dicoding), Fundamental DBMS (Gunadarma).

EDUCATION

Bachelor’s Degree in Information Systems

Gunadarma University | GPA: 3.90/4.00

Sep 2022 - Oct 2026

- Undergraduate Thesis: Development of a Tourism Destination Recommendation System for Java Island Using Content-Based Filtering and Context-Aware Re-Ranking
- Relevant Coursework: System Analysis & Design, Software Testing & Implementation, Database Systems, Information Systems Project Management, HCI, Web Development, Data Mining, Artificial Intelligence.
- Additional Training: Software Requirements Analysis, SQL Server, Go Programming, DBMS, and Web Development.

Senior High School, SMAN 1 Cibinong

Feb 2020 - May 2022

Focused on science subjects, building a strong foundation in mathematics and natural sciences.

ADDITIONAL INFORMATION

- Technical:** System Analysis, Requirement Analysis, Functional Testing, HTML/CSS/JavaScript, REST API, SQL/DBMS, Basic Cloud Computing
- Tools:** Draw.io, Figma, Postman, Git/GitHub, Visual Studio Code, Google Colab, Microsoft Office, Google Workspace
- Professional:** Project Coordination, Documentation, Problem Solving, Team Collaboration
- Languages:** Indonesian (Native), English
- Awards:** Best Student - GDSC Product Management; 3rd Best Intern - Avalon Star
